

3 Courses

AI for Design and Optimization

AI for Autonomous Vehicles and Robotics

AI for Energy and Biomedical Applications

Sep 1, 2025

JUSTICE JOHN NYAZIKA

has successfully completed the online Specialization

AI for Mechanical Engineers

In this Specialization, learners developed expertise in leveraging AI for mechanical engineering applications, focusing on design optimization, autonomous systems, and energy and healthcare innovations. The series included hands-on projects that applied AI models and techniques essential for addressing real-world challenges, preparing participants to lead technological advancements and drive impactful solutions in their fields.

Wei Lu, PhD
Professor of Mechanical Engineering
University of Michigan

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.
